

Mr Andrew Jones

E: jonezy2004@hotmail.com

Technologies

• Server Languages

- TypeScript
- JavaScript (NodeJS) (ES6, ES2016+)

• Databases

- MongoDB
- CosmosDB
- MSSQL
- MySQL
- PostgreSQL

• Templating

- Jade/Pug
- Smarty
- EJS

• Client/Software

- JavaScript (OOP, OL, Prototyping, ES6, ES2016+)
- HTML & HTML5
- CSS & CSS3 & SASS
- C#

• Libraries/Frameworks

- AngularJS 1.5 + 6
- Ionic 3+
- jQuery (1.1.12 -> 1.7.2 mostly)
- jQuery UI

• CSS Libraries

- Angular Materials
- Bootstrap
- Font Awesome

• Stacks

- LAMP, LAMP, WAMP, MEAN, SEAN

• Testing

- JasmineJS
- KarmaJS
- MochaJS + ShouldJS
- Test-driven Development
- Automated Testing

• Workflow

- Scrum
- Agile Development
- Task Management (Gulp)

Education

New Leadership Programme (6 day course)

The NEC/ Beyond Theory
December 2019

M201 MongoDB Performance

MongoDB University
October 2018
[View certificate](#)

M301 MongoDB Security

MongoDB University
October 2018
[View certificate](#)

MongoDB for Node.js Developers

MongoDB University
December 2016
[View certificate](#)

Introduction to MongoDB using the MEAN stack

MongoDB University
November 2016
[View certificate](#)

Querying with Transact-SQL

Microsoft
November 2016
[View certificate](#)

Information Systems and Computer Applications

University of Valencia
November 2016
[View certificate](#)

Employment

Lead Software Developer

October 2017 - Current

The NEC Group/The Ticket Factory

Huge Exhibition Company

Stack: MEAN

Technologies

Development technologies used: TypeScript, JavaScript, NodeJS, Express, MongoDB, Mongoose, SASS, and HTML5. Utilising Microsoft Azure's cloud platform

Notable Achievements

- Introduced continuous integration
- Introduced automated testing
- Managing product life cycles in software, app, and web development

Notable Skills

- Working to strict deadlines
- Working with multiple clients simultaneously
- Effective communication with external clients
- Providing documentation and demonstrations

Lead Developer Duties

- Making decisions on server infrastructure
- Code reviews
- Managing and scheduling projects
- Liaising with product owners
- Heading up stand ups and weekly progress meetings

Line Manager Duties

- Managing and leading my own team
- Approving and managing annual leave
- Conducting performance reviews
- Mentoring junior developers

Personal Projects

Fat Reminder (MEAN)

Fat Reminder is a service born of the idea that I could lose a few pounds!

The whole site is powered by the MEAN stack (MongoDB, Express, Angular and Node) + SASS

Inter Webz (LAMP)

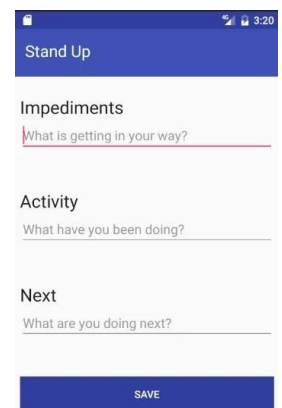

Inter-Webz is a compilation of the most brilliant content from best social feeds around.

Android Apps

Stand Up! (for scrum) (Java)

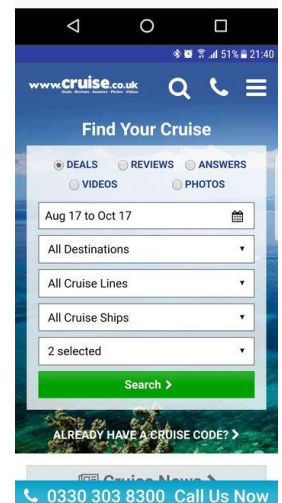

Stand Up! Is an app I made to give me some space on my phone where I can take note of the impediments, and other tasks that I work through during the day, so I have a more productive stand up the next day.

Cruise.co.uk Official App (Java)

I am the sole author for the official Cruise.co.uk app. The main functionality of the app is it a web view of the mobile site, but with a pull notification service.
