Courses Completed

HTML5 Coding Essentials and Best Practices

W3Cx

April 2017

Introduction to jQuery

Microsoft

April 2017

Windows PowerShell basics

Microsoft

April 2017

MongoDB for Node.js Developers

MongoDB University

December 2016

[View certificate](#)

Introduction to MongoDB using the MEAN stack

MongoDB University

November 2016

[View certificate](#)

Querying with Transact-SQL

Microsoft

November 2016

[View certificate](#)

Information Systems and Computer Applications

University of Valencia

November 2016

[View certificate](#)

Senior Software Engineer

July 2013 - Current

Cruise.co/Cruise.co.uk

International travel agent

Technologies

My day to day role involves managing my team consisting of 4 team members of varied skill levels through the entire product life cycle.

Notable Achievements

- I am the sole author for the company's Android app.
- Created an automated unsubscribe system using Exchange Web Services API
- Invented a voice interpreting system to analyse voice commands
- Created a Google Chrome extension to aid the Sales with their day-to-day work
- Was sole authority on architecting the company's CRM infrastructure
- Created a caching library for jQuery's AJAX

Senior duties

As a senior developer I work closely with the lead developer in the recruitment process:

- Conducting interviews
- Decision making on candidates

Other duties include:

- Making decisions on server infrastructure
- Code reviews
- Managing and scheduling projects
- Mentoring junior developers

General Info

I work as part of a larger team of 13 developers, developing the web site, our content management system and booking systems.

Reason for leaving

The entire development team are being relocated.

Personal Projects

Fat Reminder (MEAN)

<http://www.fatreminder.com>

Fat Reminder is a service born of the idea that I could lose a few pounds!

The whole site is powered by the MEAN stack (MongoDB, Express, Angular and Node) + SASS

Inter Webz (LAMP)

<http://www.inter-webz.com>

Inter-Webz is a compilation of the most brilliant content from best social feeds around.

Android Apps

Stand Up! (for scrum) (Java)

[View on Google's Play Store](#)

Stand Up! Is an app I made to give me some space on my phone where I can take note of the impediments, and other tasks that I work through during the day, so I have a more productive stand up the next day.

Cruise.co.uk Official App (Java)

I am the sole author for the official Cruise.co.uk app. The main functionality of the app is it a web view of the mobile site, but with a pull notification service.
